

Hami Wif Hat (\$HWIF)

Hami Wif Hat (“\$HWIF”) is a digital token compatible under the Solana ecosystem. \$HWIF has no functions, no utility and no intrinsic value, no promise or expectation of any financial return, profit, interest or dividend.

While \$HWIF strives to build up on its future through possible roadmap ventures such as creating partnerships , staking, listing on exchanges , and striving to create a game for fun and rewards, \$HWIF still needs its community’s support to persevere and fly to the moon.
